# 1 Introduction

Monopoly is a classic board game that has been enjoyed by millions of people for over eight decades. It is a game that involves buying, selling, and trading properties with the objective of becoming the wealthiest player. While Monopoly has brought joy to countless families and friends over the years, it is not without its criticisms. Some players have found the game to be overly long, dependent on luck, and cutthroat in its gameplay. This essay will explore the reasons why Monopoly has both delighted and frustrated players over the years, as well as examine its impact on popular culture.

## 2 Problematic

Playing monopoly is really fun, but it take a lot of time, which causes many of your friends refuses to play it, that what will make playing it not fun. one of the things that causes it to take very long is the money transactions between players, or with the bank/goverment, espacaly when u dont have the change to pay the right amount of money.

## 3 Objectives

in this web app we will minimize the time it takes to make a transaction between two players or between a player and the bank/goverment, where the transactions going to be made digitly, and the money holding will be virtually.

## 4 System Requirements and Actors

### 4.1 Introduction

To make sure that the web application replaces the paper money its full uses in the game, it is important to identify the diffrent user of the system

### 4.2 User Actors

#### 4.2.1 Admin

#### 4.2.2 Guest

#### 4.2.3 Player
